

LEHDER HAROLD HERNÁNDEZ GONZÁLEZ

PROFESSIONAL OBJECTIVE

I am a frontend developer specialized in JavaScript, my goal is to contribute to the development of innovative and efficient web solutions that improve the user experience and optimize business processes. I am looking to be part of a dynamic team where I can apply my skills in various stacks, while continuing to learn and adapt to the latest technological trends. My focus on results, together with my ability to work with and support my colleagues, will allow me to meet the objectives of the project, foster a positive and productive work environment. I am committed to excellence in each project so that they exceed the expectations of my clients.

EXPERIENCE

Front End Developer

El Morenito (Service, works and renovations)

<https://el-morenito.web.app/header>

Develop from scratch the website of a dedicated Service company in Spain. Achievements: This project was developed in record time since our leader requested it in 3 months for which he used the following programming languages: design and markup (Front-end, Angular, Html, Css, Tailwind).
